User Acceptance Testing (UAT)

ShopeZ E-Commerce Application.

Phase: Project Development Phase

Document Version: 1.0

Date: 18th of June, 2026

Prepared by: Kancharla Ushasree

Classification: Project Documentation — For Academic Submission

User Acceptance Testing (UAT)

1. Introduction

This document defines the UAT strategy, process, and test cases for the **ShopeZ E-Commerce Application**. UAT ensures that the platform meets user requirements and functions correctly before deployment. The testing process validates product browsing, cart management, checkout, payment integration, order tracking, and admin inventory management.

Application URL: `http://localhost:5173`

Test Environment: Application Name: ShopEZ E-Commerce application

Frontend Environment: React.js Application (Localhost)

Backend Environment: Node.js & Express.js Server

Database: MongoDB Atlas

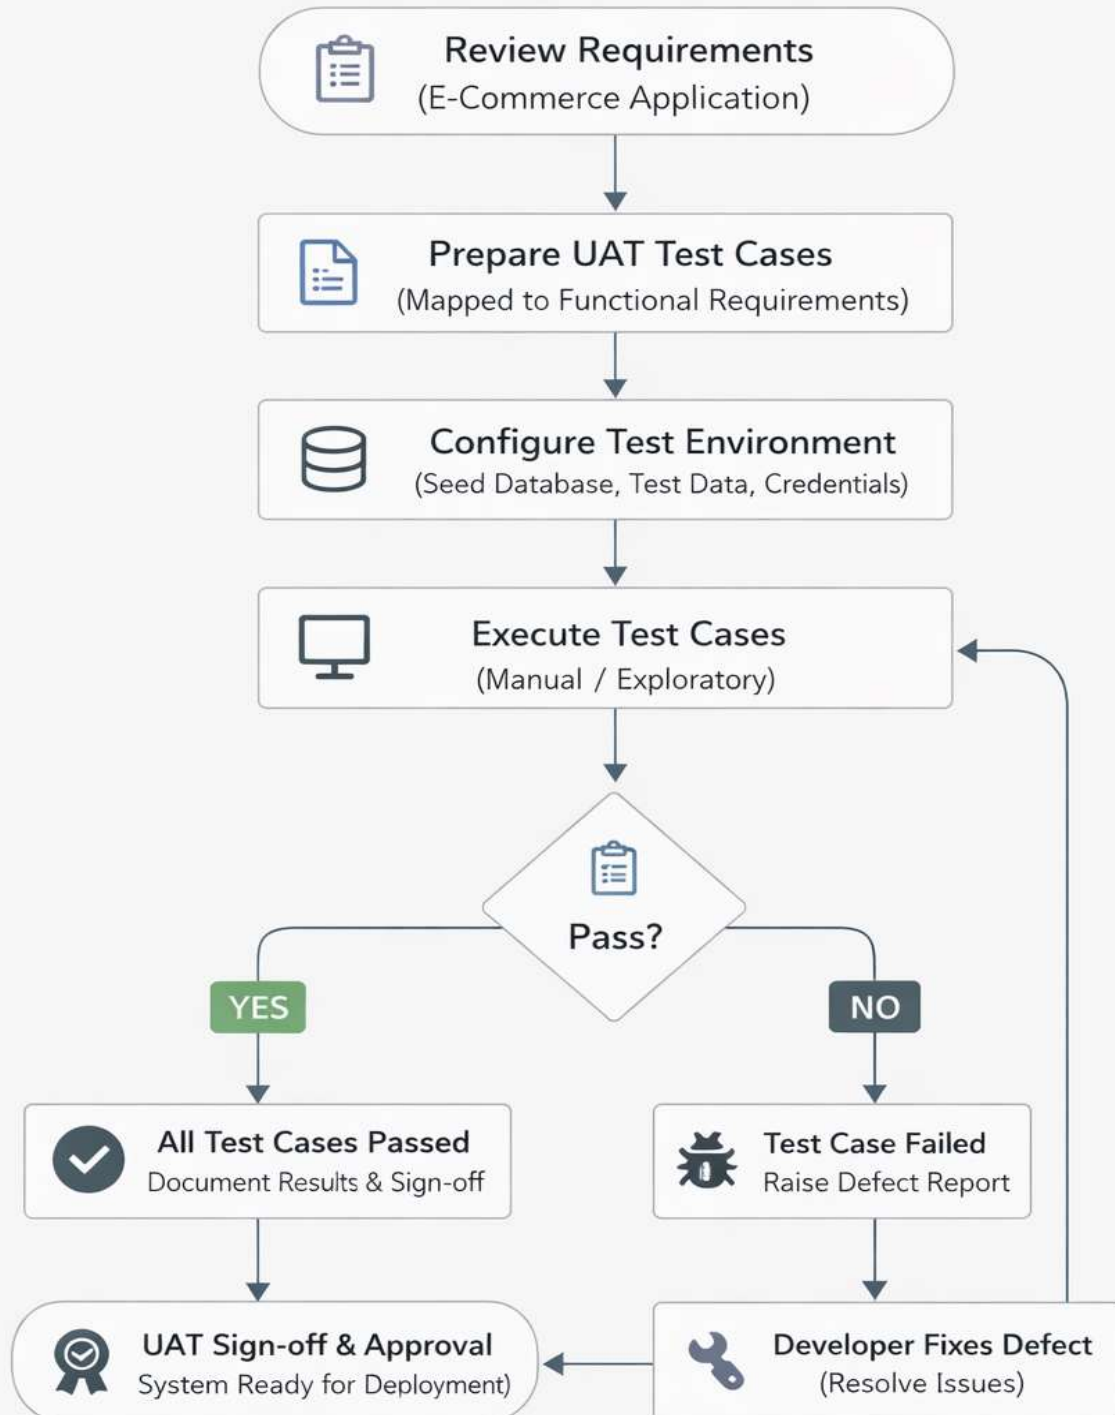

Browser Support: Google Chrome v120+, Microsoft Edge v120+

Testing Type: Manual Testing

Test Platform: Desktop / Laptop

UAT Process Flow

ShopeZ E-Commerce Application Testing

3 Test Credentials

Role	Email	Password
Admin	admin@gmail. com	Admin123
User	user@gmail. Com	user123

4 UAT Test Cases

Test ID	Scenario	Steps	Expected Result	Status
UAT-001	User Registration	1. Open Register Page. 2. Enter Name, Email, Password. 3. Click Register.	Account created successfully, redirected to Login Page..	☐ Pass / Fail
UAT-002	Product Browsing	1. Login as User. 2. Navigate to Products Page.	Product list displayed with categories and filters.	☐ Pass / Fail
UAT-003	Add to Cart	1. Select Product. 2. Click "Add to Cart".	Product added to cart successfully.	☐ Pass / Fail
UAT-004	Checkout Process	1. Open Cart.. 2. Click Checkout. 3. Enter Address & Payment.	Order placed successfully, confirmation displayed.	☐ Pass / Fail

Test ID	Scenario	Steps	Expected Result	Status
UAT-005	Payment Gateway Validation	1. Select Online Payment. 2. Enter valid card details..	Payment processed successfully.	☐ Pass / Fail
UAT-006	Order Tracking	1. Login as User. 2. Open "My Orders".	Current order status displayed correctly.	☐ Pass / Fail
